

# JCB-HT-XTRA

## MULTI-FUNCTIONAL 260 LUMEN HEAD TORCH + WORKLIGHT

## PRODUCT DESCRIPTION

The head torch combines a head strap and removable light unit that can be used as a work light with magnetic base.

Separate switch activates a wave sensor so the light can be turned on/off with your hand

2 brightness levels 260/130 lumens with wide flood beam

Battery status indicator

Latest polymer Li-ion battery technology

IP44 dust and waterproof

USB -C charging

## SPECIFICATION

Charging:	USB C
Battery:	3.7V 4400mAh Li-ion
Charge Time:	2.5h
Runtime:	Up to 4 hrs
Brightness:	260/130 lumens

## BATTERY TREATMENT / CHARGING

Recharge when the indicator turns red

Fully charged when all indicators stop flashing

Do not leave the battery fully discharged

## OPERATION

### HEAD TORCH MODE

1. Place XTRA on head ensuring the buttons are facing upwards and adjust the elasticated strap for comfort.
2. Press the power button once to turn the light to full brightness, also illuminating the green led indicator light adjacent to the power button. Press power button a second time to dim the brightness to the lower brightness level.
3. To switch off press the power button a third time. The green led indicator light adjacent to the power button will also switch off. Light shows green for charged and red for low battery.

### WAVE / MOTION SENSOR MODE

1. For ease of use, or simply if the user has oily or dirty hands the XTRA has been design with a none contact wave/motion sensor on / off switch.
2. To activate the wave motion sensor mode, press the motion mode button. This will trigger the illumination of the blue and green Led indicator lights between the two control buttons. This indicates the wave/sensor mode is now active.
3. Passing / waving your hand within 3cm of the light front will automatically toggle the light from ON to OFF or OFF to ON. Movement can be up and down or towards the light to be detected by the sensors.
4. To switch off this mode either press the power button activating the light on permanently, or press the wave / motion button to switch all modes off.

### WORKLIGHT MODE

1. An extremely useful feature of the XTRA is the work light mode. The front section of the head torch can be easily removed from the headband base to provide a portable work light with magnetic base and 360 degree swivel positioning mount.
2. Rotate main light anti-clockwise on the black mounting plate. This will release the worklight from the head torch strap.
3. Click open base from light allowing light to be positioned on 360 degree ball adapter as required.
4. The base can be used as a stand on a level surface, or use the magnetic base to fix to any metallic surface allowing the light to be used from multiple angles.
5. The worklight is switched ON and OFF in the same way as the Head Torch mod
6. The worklight can easily be re-attached to the head strap by locating the centre of the base plate and rotating clockwise until attached.

## SAFETY NOTICE

Prior to use carry out the necessary risk assessment considering the people who could be at risk, the level of risk and the precautions required to control the risk.

### GENERAL

Ensure the worklight is correctly charged before initial use

DO NOT cover or block the lens during use

DO NOT shine the product directly into the eyes of people or animals

DO NOT allow children to use the worklight

DO NOT handle or move the worklight while it is being charged

DO NOT use the worklight if you suspect it is damaged

DO NOT place the product in or near naked flames

DO NOT open the equipment or touch any of the internal parts

DO NOT open the battery pack

DO ensure the worklight is unplugged and allow to cool before attempting cleaning and maintenance

### BATTERY

**WARNING!** To reduce the risk of fire or burns:

DO NOT attempt to open, disassemble, modify or service the battery

DO NOT expose to temperatures below 10°C or above 40°C

DO NOT crush, puncture, short external contacts or dispose of in fire or water

DO NOT dispose of with regular waste - dispose of the old batteries in

accordance with local authority battery regulations

DO NOT cover the battery while charging

Ensure the charger is switched off and disconnected from the worklight before attempting to open the lamp unit

If the electrolyte in the cells comes into contact with the skin, wash thoroughly with soap and water

If the electrolyte in the cells comes into contact with the eyes, rinse thoroughly with cold water and seek immediate medical attention

The worklight should be turned off during charging to prolong battery life

## SAFETY NOTICE

### ELECTRICAL

**WARNING!** It is the user's responsibility to read, understand and comply with the following electrical instructions:

Ensure the risk of electrical shock is minimised by the installation of appropriate safety devices

Inspect the charger cable and connection for wear and damage to ensure the items are safe before connecting to the mains power supply

DO NOT use if worn or damaged

Check cables are always protected against short circuit and overload

DO NOT place the connector into any area of the worklight except the correct outlet socket

DO NOT use the cable to charge or power any other electrical items

DO NOT wet the cable or use in wet or damp conditions (indoor use only)

## MAINTENANCE & STORAGE

Keep the worklight clean from dirt and grease using a damp cloth

DO NOT submerge in water

DO NOT clean the worklight with solvents

DO check the product for damage before each use

If the product is not used for a long time, the battery will go into over discharge protection. To re-activate the battery, charge three or four times for 30 seconds until the indicator light comes on. Then fully charge the battery as normal.

## GUARANTEE

This product is guaranteed against manufacturing defects for a period of 3 years from the date of purchase.

Repair or replacement of products will be undertaken providing that:

- The product has been subject to fair wear and tear only
- The product has not been subject to accidental or cosmetic damage
- The product has not been misused and has been used only in accordance with the instruction manual provided
- The product has not been subject to insufficient servicing and maintenance
- The product has not been subject to any abnormal environmental conditions or inappropriate operating conditions
- Repairs have not been attempted by an unauthorised person and no modifications have been made to the product

The guarantee excludes the following (where relevant):

- Components normally subject to wear and tear
- Batteries and chargers

Your statutory rights are not affected.

We reserve the right to alter specifications without prior notice

**WE WILL NOT BE LIABLE FOR ANY INJURIES OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT**

# GENERAL WARNINGS & DISPOSAL

This product has been marked with a symbol relating to removing electric and electronic waste. The product should not be discarded with household waste but must be returned to a collection system which conforms to the European Directive 2012/19/EU. It will then be recycled or dismantled in order to reduce the impact on the environment. Electric and electronic equipment can be hazardous for the environment and for human health since they contain hazardous substances.
